MongoDB  
AWS / Azure.  
SEO

UI / UX  
IT Support  
Wordpress  
E-commerce platforms  
CMSs

## About Me

A seasoned software engineer, I've consistently demonstrated a knack for crafting visually striking and technically superior digital solutions. My diverse technical knowledge, coupled with a keen design sensibility, positions me at the intersection of creativity and functionality. Committed to staying at the forefront of industry innovations, I bring a problem-solving mindset, meticulous attention to detail, and a collaborative spirit. As I continue my journey, I'm eager to embrace new challenges that allow me to further hone my skills and deliver unparalleled results.

## Work Experience 3/3

### Latest Projects

**Project:** <https://edu.mhg-int.com/>  
**Designation:** Full Stack Developer

**Business case:**

- An internal academy for Marketing Home Group, offering a diverse range of educational courses tailored for group employees. This platform was developed entirely by me, underscoring my proficiency in creating comprehensive educational platforms.

**Project:** <https://ceramichome.sa/> | <https://ceramichome.com.sa/>  
**Designation:** Full stack Developer

**Business case:**

- I spearheaded the redesign of Ceramic Home, transitioning it from an e-commerce platform to a branding-centric website. The revamped site now seamlessly directs customers to Build Station for their purchasing needs. This project not only streamlined the user experience but also fortified the brand's digital footprint.
